

Auto-CAD Drawings, Design & Layout

Trimet Storage Solutions offers complete design services for your warehouse storage systems. Our design experts design your warehouse layout to be efficient through detailed CAD drawings and 30+ years of experience in the industry. We can maximize the effectiveness of your square footage. This can translate into savings by not needing to move out in order to expand your warehouse capabilities.

PLANNING YOUR WAREHOUSE

Warehouse layout directly affects the efficiency of any business operation, from manufacturing and assembly to order fulfillment. **Trimet** offers a FREE site survey and space planning service to help you set up efficient storage, packing and shipping areas in your new warehouse space.

THIS FREE SERVICE INCLUDES:

- Site audit and assessment
- Auto-Cad layout design
- Warehouse storage & shelving options
- Consultation on engineered documentation and building permit requirements
- Option Layouts
- Cost Estimation
