

AGF BROME

**MANUFACTURER
OF STORAGE
SOLUTIONS**

OUR MISSION

“DESIGNING AND FABRICATING INNOVATIVE,
ROBUST AND FUNCTIONAL STORAGE
SOLUTIONS ONE CLIENT AT A TIME.”

AN INNOVATIVE FAMILY BUSINESS THAT ENSURES PEOPLE ARE THE CORE OF THEIR SOLUTIONS

For three generations, we have been creating personalized storage solutions that focus on providing productivity and efficiency for its users.

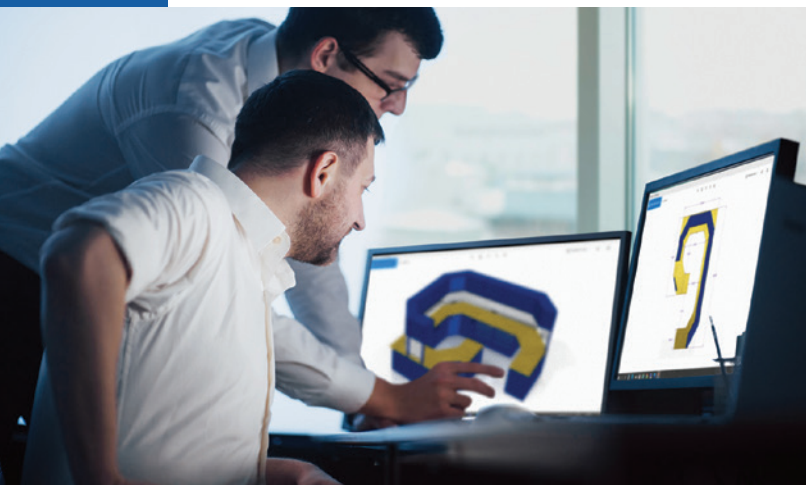

Our desire to provide products that meet the specific needs of each business while respecting the highest international standards for quality, have made us one of the leading manufacturers of storage solutions in North America and we couldn't be prouder.

EXCEPTIONAL SERVICE

EXPERIENCE EXPERTISE QUALITY

From the initial consultation to the finishing touches, our storage solutions are designed to meet your needs and surpass your expectations.

Whether you are in the public or private sector, we work shoulder to shoulder with our certified distributors to identify the solutions that meet your requirements with the goal of making your workspace more efficient by maximizing the area at your disposal.

Our recommendations include detailed proposals, illustrated using 3D modelling, allowing you to visualize the look of the finished product and to make any last-minute alterations before it goes into production.

DESIGNING AND FABRICATING THE BEST STORAGE SOLUTIONS FOR 40 YEARS

ENVIRONMENTALLY FRIENDLY AND SUSTAINABLE SOLUTIONS

AGF Brome minimizes the impact of its activities on the environment by:

- Prioritizing the use of paints made with resins fabricated from recycled plastic, allowing us to recover hundreds of thousands of bottles each year. This also contributes to reducing plastic pollution while providing finishes that are impressively scratch, impact and abrasion resistant.
- Installing a paint room that releases zero hazardous substances.
- Using certified products that meet the strictest safety standards and requirements.
- Selecting the best quality, most robust materials that are designed to last, proving our commitment to adopting environmentally friendly, respectful, and sustainable solutions.

Our waste and waste materials are disposed of in an environmentally responsible manner which substantially reduces our environmental footprint—a goal we have been dedicated to for many years.

Residential

YEARS OF HEAVY USE WITH MINIMAL MAINTENANCE

Our products, including cabinets, storage solutions, mobile toolboxes, workstations, are designed to be long-lasting, robust and flexible.

We offer the widest range of made-to-measure products and solutions in North America. You will be spoiled for choice when it comes to building the system that best responds to your expectations and that can grow along with your company.

AGF Brome is the go-to solution for warehouse and materials handling equipment. Our mobile safety ladders, carts, platforms, self-dumping hoppers, and safety work platforms are reliable, long-lasting and safe.

We offer personalized and robust products without you having to compromise on their appearance.

SAFETY LADDERS*

STABLE, SECURE, EXCLUSIVE

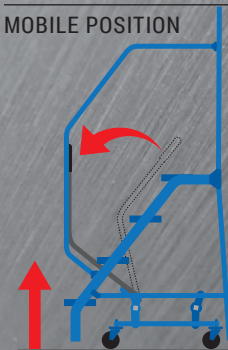

Our ladders feature a unique Pull-N-roll lever system, offering total stability. Our ladders rank among the sturdiest and safest products available.

PATENTED SYSTEM

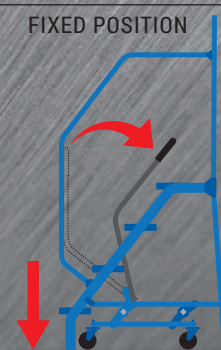

AGF Brome has developed a unique system that has made their ladders highly sought after for their safety and ease of use. Simply pull a lever to move the ladder to where you want it and release the lever once it is in position. The feet then fall back to the ground, securing the ladder for safe use.

SAFETY MECHANISM - HANDLE

MOBILE POSITION

FIXED POSITION

KEY FEATURES

- Complies with all ANSI, OSHA, and CSST, safety requirements and certified by an independent engineer
- Safety certificate plate included on every ladder
- Slip resistant steps and top step
- 24" wide steps for ease of use
- Top step is 13" deep on 3 to 7 stepladders and 20" deep on 8 and 16 stepladders
- 41" guardrail around top step
- Opening available for the guardrail
- Load capacity available up to 600 lbs
